

WANT TO MAKE A REAL DIFFERENCE?

BECOME THE NEU WORKPLACE REP!

You just need the enthusiasm to help your colleagues and to care about the issues facing the profession. We'll support you with everything else. Workplace reps are the link between union members and senior representatives, and they can help raise issues and represent members. You can also help members understand the value of a union and co-ordinate the sharing of information around national campaigns and disputes.

- You have the right to paid time off to attend comprehensive NEU training courses
- You'll be well informed about education issues and get to influence them
- You'll build up a strong network of contacts and it could even open up career opportunities
- With the promise of first-class support from our professional staff and training courses, you don't need to worry about being on your own
- You'll have the knowledge and skills to influence and challenge policy and practice in your workplace on behalf of NEU members
- You'll have the full support and a direct line to the district officers and committee, further supported by our fantastic Yorkshire & Humber regional team

We actively seek interest from joint reps in workplaces, from both teachers and support staff members. If you are part time, please do not be put off applying too!
